# NATIONAL UNIVERSITY SUDAN

## Faculty of Graduate Studies and Scientific Research

## Introduction

The National University of Sudan (SNU) launched its first studies for the first time in July 2013 with the admission of 12 students in clinical anatomy.

The first batch graduated from 11 students and received a master's degree. Human Anatomy in May 2015.

This college has been established after extensive studies to determine the necessary infrastructure and qualified personnel to operate a unique institute to meet the high demands in these areas. This was done in 2015 according to the National University of Sudan Act 2015.

The College of Graduate Studies and Research oversees the implementation of the programs from admission to graduation and coordination with the various faculties and offers graduate programs to give high quality results.

The College of Graduate Studies and Research oversees the implementation of programs from admission to graduation and coordinates with various colleges that offer postgraduate programs to give high quality results.

## International students

- ### How to apply

How you apply depends on your qualifications and the course for which you are applying. We recommend that you apply as early as possible to allow yourself time to arrange things such as your visa, flights and accommodation.

- ### Enrolment

Enrolment is the process by which you secure your place in a course and choose your subjects for the coming semester or year

- ### English language requirements

Depending on your educational background and country of origin, you may need to provide evidence of your English proficiency to be able to study here. It is important to understand English well enough that you can comfortably cope with lectures, tutorials, examinations, assignments and examinations. That's why our courses require a certain level of English proficiency. If English isn't your first language, you will need to provide proof of your English proficiency before you can enrol here

- ### Visa information

If you're an international student, you will need to obtain a visa to study at the National University Sudan. There are several different types of visa that might be suitable, each with conditions that you will need to understand in order to be eligible for enrolment. Find out more about visa information.
